

### **Microsoft partners with local varsities to promote digital skills**

Microsoft, America's giant computer company, will partner with local universities and colleges to promote the use of technology in teaching and learning. The partnership will see improved use of ICT through the signing of education transformational agreements between public and private organisations. A team from the corporation also toured Jomo Kenyatta University of Agriculture and Technology. It observed a number of innovations by students and encouraged them to exploit the available opportunities in ICT. JKUAT Vice-Chancellor Victoria Ngumi said Microsoft is one of the critical partners in the institution's laptops assembling programme. <https://www.nation.co.ke/business/Microsoft-partners-with-Kenyan-varsities/996-5121874-112vkrhz>
