

University Managers Sensitized on Security

The National Disaster Management Unit (NDMU), a Department under the Inspector General of Police Service has advised institutions to be vigilant and embed security awareness at all levels of the organisation. While Kenya's security personnel are doing everything possible to enforce the much needed security in a bid to avert dangers caused by cases of heinous attacks, institutions such as JKUAT through mitigation and preparedness paradigm need to play their part in intercepting criminal activities at preliminary phases thus making JKUAT and Kenya at large, secure. <http://www.jkuat.ac.ke/university-managers-sensitized-on-security/>
