(54) Title:

AN ANTI-AGING COSMETIC PRODUCT DERIVED FROM PLANTS AND RUMINANT ANIMALS OIL EXTRACTS

(57) Abstract:

This invention to the cosmetic and toiletry field and pertains to the application of the formulated cosmetic products on the entire body and face to achieve a smooth elastic skin, free from wrinkles, rashes, acne and sunburn irritation. The invention involves the formulation of a cosmetic product by incorporating the active natural ingredients namely; fat extracts from camel and goat milk, oil extracts of coconut, amaranth and peanut seeds into a cosmetic product base (carrier). This carrier is formulated using; Stearic acid, Cetyl alcohol, Glycerol monostearate, white oil, deionised water, glycerine, TEA, fragrance, colour, preservatives and extracts of peanut seeds coat roots and stems. The composition of this invention entails the percentage weight of each active natural ingredient and the carrier based on the total weight of the composition incorporated together to formulate the cosmetic product.
