(54) **Title:** DEVICE FOR TRACKING AND ALERTING VEHICLE AND INDUSTRIAL EMISSIONS

(57) **Abstract:** A device for tracking and alerting vehicle and industrial emissions is disclosed. The device consists of an emission tracking and alert device, an electrical circuit, a microcontroller board connected to the electrical circuit, a means of connecting the physical device to a computer with a database. and an alert system composed of an LCD screen connected to the electrical circuit. The invention further discloses an electrical circuit further comprising three potentiometers in place of actual sensors, three resistors of 220 ohms each, three LEDs; red, blue and yellow, and connecting wires.
